

# Homework Policy and Guidelines

**Respect, Creativity, Excellence, Resilience**

*Learners are inspired to become confident, creative and active global citizens of the future.*

Homework can be a supportive way of assisting students to develop self-discipline, organisation and time management skills and positive study work habits. Daily reading practice and learning number facts (tables) to develop fluency and understanding is encouraged from Reception to year 6. Homework can be any learning experience outside of school hours.

These experiences or activities can be negotiated with students and their parents and should be meaningful, purposeful and consolidate learning. It is an opportunity for parents to share in their child's learning experiences and students learning how to take responsibility for their own learning.

## **Action**

Homework will be given to all students attending this school. When setting homework, teachers consider the year level of students and the appropriateness of the tasks set. Teachers provide feedback and support as required.

Homework could be an extension of classroom activities, for example:

- reading practice
- reading comprehension questions
- practising word knowledge concepts
- revising maths concepts
- planning oral presentations
- completing unfinished class work (including work from specialist lessons)
- creating multimedia presentations
- online educational sites – e.g. Study Ladder, Reading Eggs, Prodigy

## **Students:**

- clearly record set work in their diary/homework book/google calendar
- be responsible to complete work within a set time
- discuss with teachers any problems they may have about their homework
- complete work to a satisfactory standard

## **Teachers:**

- set realistic and meaningful tasks across the week (7 day period)
- clearly explain set tasks and time allowed for its completion
- check completion of task set
